## VALENTINES FOR SENIORS

Parents, did you know that your children have been working on a community outreach project? They have been making Valentines for senior citizens. Some of the children made them on the playground and others were done during art class. The kids made over 400 Valentines. The Valentines were delivered to 6 local nursing homes and assisted living facilities. It can't be put into words how happy the residents were to receive these cards. Many thanks to the students and families that helped make this project such a huge success.
